tFLOW® automation meets intensifying demands with ease.

Pre-press automation workflow software

Aleyant tFLOW is a powerful digital and large format prepress workflow automation software solution that simplifies difficult file management tasks and processes to optimize efficiency and production throughput.

Fast. Simple. Safe. Mobile.

Connect to tFLOW from any device, anywhere, anytime.

Easy Integration

tFLOW connects with Aleyant Pressero and PrintJobManager. In addition, it integrates with any MIS/ERP, Web-to-Print, and Output System.

Automate Repetitive Prepress Tasks

tFLOW eliminates redundant manual touch points and provides team communication tools for today's workplace.
